

Manage your **time!**

With **TEMPO**[®],
increase your **lab's efficiency!**

Using TEMPO you can:

- operate the laboratory to suit the routine requirements and increasing demands of your customers;
- start testing at any time of the day, any day of the week;
- reduce hands on time and time to results;
- reduce training time;
- send quicker information to your customers;
- simplify your staff management.

With **TEMPO**, gain time...
to perform other tasks!

You will be able to:

- diversify your activities: audits, consulting, training, trend analyses...
- stay abreast of the constantly evolving regulatory environment;
- increase your chemical or microbiological analyses without the need to increase staff levels.

tempoTM
**the simple, rapid and
automated method
that gives you this time.**

Control your costs!

Your main objective: remain competitive

bioMérieux, your partner in this challenge, provides a solution which ensures a good return on investment for your food microbiological testing requirements.

The time gained by TEMPO® allows you to:

- ✓ reallocate staff to tasks with higher added value;
- ✓ reduce overtime and temporary workers' costs;
- ✓ improve the efficiency of the microbiology laboratory.

The ease of use and versatility of TEMPO allows you to:

- ✓ improve the management of staff;
- ✓ reduce your training costs;
- ✓ perform more analyses without expanding your facilities.

TEMPO limits the risk of error and therefore the costs of non-quality:

- ✓ automated reading;
- ✓ automated data reporting;
- ✓ complete traceability (unique barcodes, LIMS connection);
- ✓ manipulations are reduced to a minimum.

Complete traceability throughout the analysis.

Automated reading.
